

1 PURPOSE AND SCOPE

- 1.1 This procedure defines ASI's process for gathering, handling and utilizing competence & qualification data for audit personnel used by CABs.
- 1.2 This procedure will be used to define how and when the Audit Personnel Registry (Auditor Registry) shall be applied - the Auditor Registry itself and the data contained within it will not be used for any purpose/s other than those defined herein.
- 1.3 This procedure applies to all specified audit personnel used by ASI accredited/approved Conformity Assessment Bodies (CABs) to implement certification requirements against the standards that ASI accredit/approve.
- 1.4 This procedure does not monitor individuals other than in their capacity as resources used by CABs. It is in that capacity and that capacity alone that their data is incorporated in this Auditor Registry.

2 EFFECTIVE DATE

- 2.1 This procedure becomes effective on. the date of approval indicated above.

3 CHANGE HISTORY

Version number	Date of approval (Effective date)	Description of changes
1	01/04/2016	First publication
1.1	20/10/2016	Update of FSC-PRO-20-004 version number reference.
1.2	16/03/2018	Formatting changes; no content changes.
2	28/09/2018	Significant revisions to incorporate additional programs, to account for GDPR requirements.
2.1	17 January 2019	Logo and name updated; no content changes.
2.2	26 June 2020	Minor changes: Removal of term "Training" from procedure name and from content, deletion of background section, alignment of deadlines (now all calendar days instead of mix of working/calendar days, deadlines to report changes in clause 6.1.2 increased from 10 working to 30 calendar days, changes to the Auditor data retention period.
3.0	11 July 2022	Major changes: change of ASI's role from data processor to data controller, explicit use of gathered data to inform planning, establishment of inclusion of audit personnel details within the ASI Auditor Registry as an ASI requirement across all schemes, change to name of procedure. Change of name from Auditor Registry procedure to Audit Personnel Registry procedure.

4 TERMS AND DEFINITIONS

- 4.1 Unless specified otherwise, all ASI terms and definitions are provided in the ASI Glossary (ASI-INF-20-100).

Consent of the data subject means any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her

Personal Data Any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person

Pseudonymization The processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

6 GENERAL PROVISIONS

- 6.1 Inclusion in the ASI Auditor Registry will result in a Unique Auditor Number (UAN) being generated for the individual in question to enable unique and accurate identification of auditors across scopes, standards and CABs.

6.1.1 For auditors working simultaneously for different CABs, ASI shall link the profile for the related CABs to ensure that the UAN is maintained. However, information for each CAB shall be kept separate and visible only to the relevant CAB.

6.1.2 Where necessary, auditor names shall be transliterated into English by ASI to ensure that each individual in the Auditor Registry only has a single UAN.

6.1.2.1 CABs shall record full names without abbreviations in English. In case a transliteration does not exist, CABs shall use the original language.

7 REGISTRATION OF AUDITORS

- 7.1 The CAB is responsible for the registration of audit personnel contracted and working within their system/s.
- 7.1.1 The CAB is responsible for ensuring that all information contained within the Auditor Registry is accurate and up to date.
- 7.1.2 Changes to information requested in section 7.2 below shall be updated in the Auditor Registry within 30 calendar days of the change taking place.
- 7.2 Audit personnel shall be registered in the CAB Portal. For each individual registered in the CAB Portal, the following mandatory information shall be entered:
- 7.2.1 First name(s) and surname(s);
- 7.2.2 Function;
- 7.2.3 Qualified scopes;
- 7.2.4 Initial date of qualification;
- 7.2.5 Status of qualification;
- 7.2.6 Country of residence.

8 PROCESS

- 8.1 ASI shall regularly monitor and review the Auditor Registry to verify that information is up to date and accurate.
- 8.2 The relevant documentation and records for data entered into the Auditor Registry may be verified by ASI during the office assessments of each CAB.
- 8.3 When planning witness assessments as part of oversight activities for any given CAB, ASI shall use information within the Auditor Registry to ensure that a representative sample of any CAB's audit personnel are witnessed over the course of the ASI accreditation/approval cycle (5 years).
- 8.3.1 Effort shall be made to observe as many different CAB auditors as is feasible during the course of a CAB's accreditation/approval cycle.
- 8.3.2 This is subject to logistical and risk-related considerations, including but not limited to:
- audit personnel availability during scheduled witness audit timeframes;
 - auditor qualification for targeted scopes;
 - targeting data stemming from recorded incidents & disputes, previous assessment findings or other means.
- 8.4 When a witness assessment has been scheduled with a CAB, the subject of the witness assessment may be asked to complete a self-assessment questionnaire. This is optional, but will facilitate a more efficient witness assessment, and - if completed - should be filled out and returned prior to the witness assessment taking place.

9 PRIVACY

9.1 Collection and processing of data within the Auditor Registry is necessary for the purposes of the legitimate interests pursued by ASI with regard to planning and implementation of an effective assessment and accreditation/approval program, as required under the terms of ASI's Surveillance and Sampling Procedure (ASI-PRO-20-105).

9.2 CAB Auditor data shall be viewable in full by ASI personnel only.

9.2.1 Audit personnel name/s shall be removed from ASI Auditor Registry records for all other users in order to pseudonymize data held.

9.3 When an auditor ceases their working relationship with a CAB, their data shall be moved to a 'Terminated Auditors Account'. This data is viewable by the ASI Operations team and the Integrity Services Unit only and records within this Account shall be removed from the AMS entirely after 10 years.

9.3.1 Auditor data is retained within a Terminated Auditors Account for the legitimate interest of allowing the ASI Operations Team to detect and consider risk factors when designing and implementing the witness and surveillance program for the CAB and to allow the Integrity Services Unit to conduct investigations where necessary into an auditor's assessment history. Beyond these uses, the relevant data will not be used.

9.3.2 If an auditor ceases their working relationship with all ASI CABs their auditor registry data shall be removed entirely under the same terms.

Note that this does not include pseudonymized, aggregated data held for statistical purposes. All data within the ASI Auditor Registry shall be for use within the assurance systems it operates in - it will not be shared with any party outside the assurance systems it is part of without written authorisation from the data subject unless aggregated and pseudonymized.

9.3.3 Auditor Registry data may be viewed by other parties within the assurance system/s it operates in, including Scheme Owner personnel.

9.3.4 No personal data will be shared with any party outside the assurance systems it is part of that explicitly connects UANs with Auditor names.
